environment are not the only factors, which affect learning. Self-esteem plays a major role in how students perform in school.

Children who feel good about themselves tend to have an easier time handling conflict, resisting negative influences and remaining optimistic.

Creating an Effective Classroom Environment:

Factors Which ...

Affective factor is one aspect that can influence the styles and strategies used by the second language learners. This opinion is supported by Keefe's (1982: 4) definition about the style (will be explain further in the next chapter). He stated that style is not only cognitive traits, but also affective and physiological traits.
