human beings and nature.

Our Approach — AgroEcology Fund

Agroecology (a-grō-ē-'kă-lə-jē) is the study of ecological processes applied to agricultural production systems. Bringing ecological principles to bear can suggest new management approaches in agroecosystems. The term is often used imprecisely. Agroecologists study a variety of agroecosystems. The field of agroecology is not associated with any one particular method of farming, whether it ...
