The Springfield Instrument Company was founded in 1956 by two New York City dentists. They supplied weather instruments for the home market and were located in Hackensack, New Jersey. In 2009 Taylor Precision Products acquired Springfield. They still supply thermometers and still use the Springfield name but they have gone digital.

Springfield Instrument Company - Analog Weather

A barometer measures air pressure and can forecast the weather within a 12 to 24 hour period. Air pressure can be measured in inches of mercury, millimeters of mercury, or hectopascals, depending on where you live and the gauge on the instrument.
