Lubricants - American Petroleum Institute

Almost every lubricant used in plants today started off as just a base oil. The American Petroleum Institute (API) has categorized base oils into five categories (API 1509, Appendix E). The first three groups are refined from petroleum crude oil. Group IV base oils are full synthetic (polyalphaolefin) oils.

API 1509, Annex N just reprinted the information from the ACC Code of Practice, Annex F. ACC proposed that, because ACC Technical Advisory Group develops a test’s MTEP, the list of tests, parameters and their MTEP appear only in the ACC Code of Practice Appendix F and that API 1509 Annex N refer to that document.
