Canadian Microeconomics Problems And Policies

In neoclassical economics, market failure is a situation in which the allocation of goods and services by a free market is not Pareto efficient, often leading to a net loss of economic value. Market failures can be viewed as scenarios where individuals' pursuit of pure self-interest leads to results that are not efficient- that can be improved upon from the societal point

Thus, states have minimum requirements for insurance policies that may include certain provisions, minimum guarantees, and cancellation rights. Most contract provisions of insurance policies must be approved by the insurance commissioner and, in most states, most forms cannot be presented to the public before they are approved.

Insurance Regulation

In the 1990s, Canada increased taxes and cut government spending but, at the same time it cut interest rates and saw a devaluation in the Canadian Dollar. This enabled the economy to continue to grow - despite the effect of tight fiscal policy on demand.
