### Russian case morphology and the syntactic categories

The Russian language has six cases to show what function a noun has in a sentence: nominative, genitive, dative, accusative, instrumental, and prepositional. The endings of Russian words change depending on the case they are in. It is best to learn the words and the way they sound in different cases by heart.

### The 6 Cases in Russian Grammar - ThoughtCo

Main article: Russian declension § Nouns Nominal declension involves six cases – nominative, genitive, dative, accusative, instrumental, and prepositional – in two numbers (singular and plural), and absolutely obeying grammatical gender (masculine, feminine, and neuter).

### Russian grammar - Wikipedia

Anyone who has studied German, Latin, Russian, Classical Greek or Sanskrit, is familiar with the concept of Case. Case generally refers to a morphological scheme in which a noun, whether via internal mutation of its phonemes or via affixes, shows what grammatical "role" it plays in the phrase or sentence in which it appears.

### A Grammar of the Ithkuil Language - Chapter 4: Case Morphology

This is the first of a sequence of lectures discussing various levels of linguistic analysis. We'll start with morphology, which deals with morphemes (the minimal units of linguistic form and meaning), and how they make up words.. We'll then discuss phonology, which deals with phonemes (the meaningless elements that "spell out" the sound of morphemes), and phonetics, which studies the way ...

### Linguistics 001 -- Lecture 7 -- Morphology

The implications of syncretism for the syntax-morphology interface have long been recognised: it argues either for an enriched model of feature structure (thereby preserving a direct link between function and form), or for the independence of morphological structure from syntactic structure.

### The Syntax-Morphology Interface by Matthew Baerman

"Case" is a linguistics term regarding a manner of categorizing nouns, pronouns, adjectives, participles, and numerals according to their traditionally corresponding grammatical functions within a given phrase, clause, or sentence.In some languages, nouns, pronouns, adjectives, determiners, participles, prepositions, numerals, articles and their modifiers take different inflected forms ...

### Grammatical case - Wikipedia

Russian Russian has a rich system of cases and verbal conjugation, allowing for very free word order. There are six cases in Russian: nominative, accusative, genitive, dative, prepositional, and instrumental. Adjectives agree with nouns in gender, number, and case.
