computer programming ebooks. Each downloadable ebook has a short review with a description. You can find over thousand of free ebooks in every computer programming field like .Net, Actionsript, Ajax, Apache and etc.

Chapter 2 The Copernican Revolution

Chapter 2: The Copernican Revolution
Copernicus, as we all know, made scientific history by proposing (in around 1514) that the sun is stationary, at the centre of the universe, and the earth orbits the sun, as do all the planets, apart from the moon.

axis (1 A.U. = the mean Earth-Sun distance = Earth's semi-major axis). In this case: $(P \text{ Years})^2 = (a \text{ AU})^3$

Teach Astronomy - Kepler's Laws

The Copernican Revolution was the paradigm shift from the Ptolemaic model of the heavens, which described the cosmos as having Earth stationary at the center of the universe, to the heliocentric model with the Sun at the center of the Solar System. This revolution consisted of two phases; the first being extremely mathematical in nature and the second phase starting in 1610 with the publication ...
