The conflict in this case arises from the management styles of two managers, Ralph and George, who head two different departments in the same organization. Ralph's problem with George is that the latter is taking staff from his department without his approval. On the other hand, George feels that he is doing the right

### **Conflict Management Case Analysis | Grademiners.com**

The Case Study revealed that the quality of communication can in fact be enhanced by linguistic diversity. In particular, whilst accents and turns-of-phrase sometimes caused short-term barriers to communication, the language differences provided a strong catalyst for clearer communication for all team members.

Public understanding of science is a luxury. Research has shown that democratic societies that are scientifically literate make equitable choices in regards to science-related policy issues (European Commission, 1995; Rudolph and Horibe, 2016). The National Science Education Standards defines science literacy as “the knowledge and understanding of scientific concepts and processes required ...
