reduce a range of trade barriers to advance or protect a set of economic goals. The level of integration involved in an economic regionalist project can vary enormously from loose association to a sophisticated, deeply integrated, transnationalized economic space. It is in its political dimension that economic integration differs from the broader idea of regionalism in general.

Economic integration | Britannica

The effects of economic integration on industry location in Canada and the United States seem to have been much weaker. On exception to this finding is U.S. cities on the Mexican border, whose employment growth is strongly positively correlated with export production in neighboring Mexican regions.
