Locate the cabin air filter container on your Ford Expedition. If you are standing in front of the vehicle, looking at the engine, it will be on the back, left side of the engine, next to the heater fan. You will see a black cover over the top of the container. The air filter is approximately 6" x 9" and about 2" deep.

What is really sad is that with a little knowledge on how auto ac works the fan clutch failing shows up as higher pressure on the high side. To test whether the fan is moving enough air through the condenser all you have to do is put a shop fan blowing into the condenser when the system is running.
