First, depending on the size of the business, a fragrance-free workplace may be entirely impractical, given the number of people (employees and visitors) and other scent-producing products (cleaners, air fresheners, etc.) that could impact an individual who is sensitive to smells.

### Your employee has a fragrance allergy. What does the ADA ...

The Perfume Handbook, published in 1992, lists 42 separate botanicals with fixative properties. Orris root and angelica, the two most often cited by gin distillers as being fixatives, are both present; however, so are some other common gin ingredients, such as coriander and woodruff that are rarely—if ever—granted that status.
