I have a project where we have about 20 XL 15C's on an R2 replacement (not a Tridium AX solution). All other Honeywell Lon devices (XL 10's) have been easy to integrate but we are having issues reading the XL 15C data (XIF) we downloaded from the device. There are no plug ins and no DRF files for the XL15C's. Lonspec seems to be mentioned often in other posts as a possible solution.

Good Morning- I am bringing 5 XL15C controllers into a JACE, using the XL15C\_with\_objects device from Honeywell Buildings Forum. What is the proper way to bring points corresponding to the AO values into AX? All of the IO shows up in an IO folder as a series of LON Objects, and when I do a Discover in the Point Manager I don't see a Value for the AO Objects when I drill into the object like I ...
