What is House Advantage? The term “house advantage” refers to the mathematical edge maintained by gambling operators that ensures the house will always end up making money. The house advantage in games, usually given as a percentage, can range from fairly small (less than 1% for blackjack players using basic strategy) to quite large (about 25% for some blackjack side bets).

type of bet made. This table was given to me anonymously by an executive with a major Strip casino and is used for rating players.

House Edge of Casino Games Compared

House advantage is usually presented as a percentage of a game's wagers that a gambling service provider expects to keep from players over time. It's not always a big number—it doesn't have to be for the house to earn a lot of money, since we're talking about taking a small amount from many players over time.
