How Google works. No matter how complex your product is on the back end, you need to make sure that it is straightforward and easy to use from a user perspective. Companies that complicate things will have a much harder time getting their products to market than those that simplify their ideas.

#### How Google works # 12experts

Firstly, businesses can reach potential customers by showing ads on a range of Google products such as Search, Maps and YouTube. Secondly, businesses can buy ad space that we show on sites and apps that partner with us, like news publications and blogs. In this case, most of the money goes to the partner and helps fund their content.

#### How Google works - Google

While Google shares some facts about its algorithm, the specifics are a company secret. This helps Google remain competitive with other search engines and reduces the chance of someone finding out how to abuse the system. Google uses automated programs called spiders or crawlers, just like most search engines, to help generate its search results. Google has a large index of keywords that help determine search results.
