Hypoglycemia The Disease Your Doctor Wont Treat

The term "Hypoglycemia" is a misnomer! The word means low blood sugar, which is a temporary state not a disease. A better term would be "Glucose Hypersensitivity" If you are diagnosed with hypoglycemia, the first thing you should realize is that you don't have a disease you have a very effective pancreas.

Amazon.com: Customer reviews: Hypoglycemia: The Disease ...

If you don't have diabetes, hypoglycemia is 55mg/dL. If you have symptoms of hypoglycemia, your doctor will need to figure out the cause, starting with a blood test. Similar to when you have a fever, having low blood sugar is not a disease, it's a condition that indicates that something else is going on in your body. Verywell / Emily Roberts
