### **Infection Control | CDC**

Infection prevention and control (IPC) measures are the foundation of best practice among healthcare workers, yet there is a wide variability in their adoption by staff.

### **Infection prevention and control: Who is the judge, you or ...**

Abstract. Background Despite both national and international recommendations for good practice in infection prevention and control (IPC), compliance can be low. Several reasons for this have been identified, including staff attitudes. There is little literature on how these attitudes are perceived by nursing students learning in clinical placements, and this study was undertaken to explore perceptions of both nursing students and their mentors in relation to attitudes towards IPC.
