Introduction into Oil and Gas Industry Oil Formation Oil was formed from the remains of animals and plants that lived millions of years ago in a marine (water) environment before the dinosaurs. Over the years, the remains were covered by layers of mud. Heat and pressure from these layers helped the remains turn into what we today call crude oil.

Nigerian Oil and Gas A little-known fact, even amongst Nigerians, is that oil production started in Nigeria over 100 years ago, in September 1909 to be precise. The search for crude oil was spearheaded by the Nigerian Bitumen Company, a private entity led by an American engineer, John Simon Bergheim.
