Even though I am not taking Sequential 1 Regents, but I am getting Math A regents. This book is the better version math review compared to the Math A book. This book contains a more indepth review of the Math A cirriculum. Logic in this book is not taught so well compared to Kaplan's Sequential 1 book, but is

## **Archived Sequential Mathematics I Regents Exam**

This book is top choice, but if you are

# Get Free Lets Review Sequential Mathematics Course li Barrons Review Course

struggling with this class, I would recommend buying the Let's Review: Sequential Mathematics Course III book, this book gives you all the information and problems you need to pass the regents, it is like a textbook, but much clearer, but the red book only reviews past regent exams, which you might not fully understand, but it is up to you how
