Step 1, Plug the cable modem into your computer. Make sure your computer is near a wall cable socket. Step 2, Plug the cable modem into the wall cable socket. Step 3, Plug in the cable modem's power cord. Most modem's don't have an On/Off switch. Plugging and unplugging them is how you turn them on and off. When the cable modem is turned on, it has to go through a boot up process. You can tell this process is done when most of the lights have turned on and stopped blinking. There's usually one ...
