Blow Molding - Davis-Standard

U.S. Patent 237168 was issued on February 1, 1881, to Celluloid Novelty Co. and Celluloid manufacturing Company, New York. This was the first patent for the processing of extruded polymer into a parison for blow molding. The first applications for blow molding were for cellulose nitrate, and later, in the 1930's, for cellulose acetate.
