Unity. Unity is the idea that all parts of the writing work to achieve the same goal: proving the thesis. Just as the content of a paragraph should focus on a topic sentence, the content of an essay must focus on the thesis.

Unity and Coherence in Essays | Writing Center

Content, the aspect that determines the character of the whole, is the sum of all the components of an object—its properties, internal processes, relations, contradictions, and tendencies. Form is the internal organization of content. The relationship of content and form may be described as a unity, as almost a transition of one into the other.

"The Unity of Perception is an interesting and thought-provoking book. The central view capacitism and its broad implications for philosophy of perception, epistemology, philosophy of mind, and cognitive science make this book a valuable contribution to anyone working on perception, and I have no doubt that it will draw a great deal of well-deserved attention."
